

FEATURING A 52" WALL

THE VICTORIA

presented by:

the story...

The Victoria Falls, is located in southern Africa on the Zambezi River between the countries of Zambia and Zimbabwe. While it is neither the highest nor the widest waterfall in the world, it is claimed to be the largest. This claim is based on a width of 5,604 ft. and height of 354 ft. forming the largest sheet of falling water in the world. David Livingstone, the Scottish missionary and explorer, is believed to have named 'Victoria Falls' in honor of his Queen.

Like a Queen, The Victoria brings unique style, beauty and grace. The design inspired wall, color coordinated posts and top seat will complement any backyard. This pool is designed to whatever kids or Mother Nature can dish out. The 7" top seat and 6" steel posts with unique interlocking resin caps and resin foot collar gives the whole pool strength, support and style. Every Victoria pool is produced in North America and features a Vinyl Works deluxe liner, also manufactured in North America.
